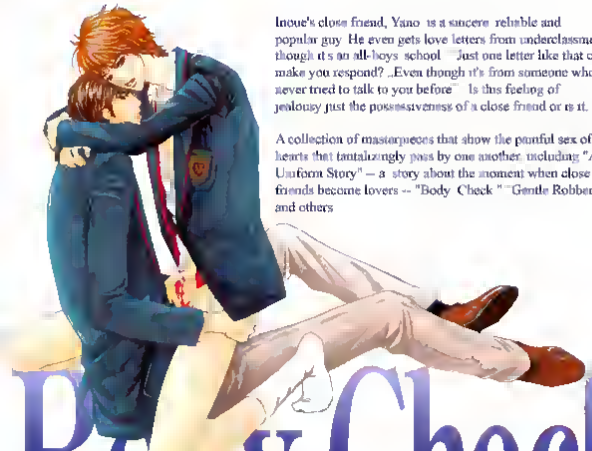
What would happen if I confessed to him?



Inoue's close friend, Yano is a sincere reliable and popular guy. He even gets love letters from underclassmen though it's an all-boys school. "Just one letter like that can make you respond? ...Even though it's from someone who's never tried to talk to you before." Is this feeling of jealousy just the possessiveness of a close friend or is it.

A collection of masterpieces that show the painful sex of hearts that tantalizingly pass by one another, including "A Uniform Story" – a story about the moment when close friends become lovers -- "Body Check" "Gentle Robber" and others
